# THE EXTREME MAKEOVER

AT THE PERFECT SMILE STUDIOS

The Cosmetic Dentist from Extreme Makeover is Dr Rahul Doshi. His team of Cosmetic Dentists were selected to work with the Extreme Makeover programme on Living TV. This show is a big hit on UK prime time television.

The clients were chosen from 16,000 people who applied to the TV show. Perfect Smile Studios provided the dental care. The best from other fields including plastic surgeons, eye specialists, personal fitness trainers, fashion designers, and hair & beauty consultants worked together to produce remarkable transformations.

Drs' Rahul and Bhavna Doshi were again selected to work on seven patients on the third series of Extreme Makeover UK (on Living TV). The Team at The Perfect Smile Studios in Hertford, Hertfordshire

also treated fifteen clients on the second series of the popular TV show (more than any other dental Practice in the UK!).

The treatment provided has ranged from the placement of dental implants and cosmetic dentures, to Smile Design using porcelain veneers, crowns and bridges and chair-side teeth whitening. We have also treated some people who have required dentistry to the whole mouth due to extensive dental problems.

Dr Rahul has also appeared on This Morning and The BBC, transforming the smiles and lives of so many lucky patients. The Perfect Smile Studios has also been featured across many National Newspapers and magazines including The Times, The Mail, the Express, The Evening Standard, Tatler, Marie Claire and many more.

*"We take great pride in helping nervous clients. Someone may have had a bad experience at the dentist in the past, often as a child. We go out of our way to spend time understanding the individual's concerns so we can help as appropriate. It is very satisfying for us to see someone who comes in crying with fear, but then gradually change by becoming confident at every dental visit! We assure you of comfortable dental treatment - always."*
